

Exhibition Room of the Tokyo Waterfront Area

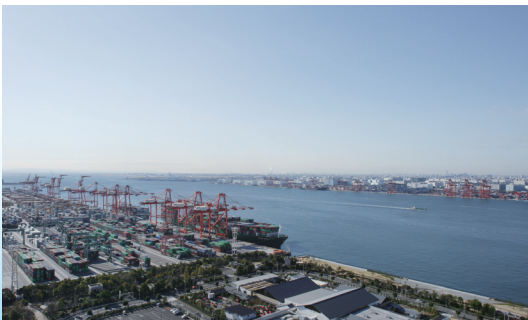

In this facility, we would like to introduce you to the history, appearance and future of the Waterfront City that hosts many domestic and international visitors as well as Tokyo Port, which supports the economic and daily lives of Tokyo and Eastern Japan as the international trade port.

We hope that this facility will help you to deepen your understanding of Tokyo Port and Tokyo Waterfront Area.

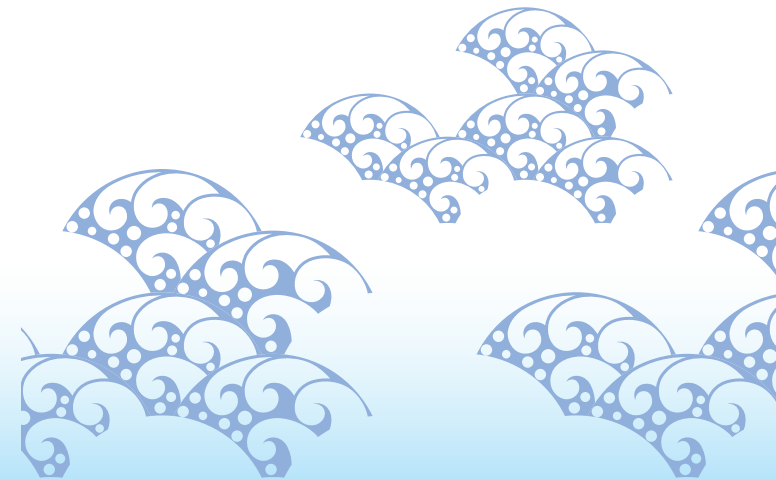

Exhibition Room of the Tokyo Waterfront Area

See at a glance the unknown sides of the “Port” and the “City” in the Tokyo Waterfront Area!

Future Deck

“Creation of Port Virtual Explorer” enables you to explore with a tablet AR visuals of the Tokyo Waterfront City and otherwise-inaccessible places such as the operator’s compartment of a gantry crane and the inside of the public utility’s conduit.

Creation of Port Virtual Explorer

Edo Deck

Dioramas and models to re-create the lifestyle of Edo citizens along the river bank and introduce the culture generated from the marine trade and port in the Edo Period.

TOKYO minatorie is an exhibition room intended to introduce visitors to the history, appearance and future of Tokyo Port and the Waterfront City by taking advantage of its location overlooking the waterfront area from 100 meters above the ground. Experience at first hand AR visuals with the “Creation of Port Virtual Explorer,” and enjoy different views shown in conjunction with a 55-inch touchscreen monitor to provide various types of information about the Waterfront Area.

Communication Deck

A seminar room for training program; a space for events and exhibitions; introduction to the Marine Park.

View from 100 meters above the ground

Port Deck

Video showing 6 episodes about Tokyo Port which supported the postwar reconstruction and growth of Tokyo.

History Gallery

Looking back on the 400-year history of the port and the city of Edo/Tokyo, with chronologically compiled graphics and photos.
